Education

NIT Rourkela

B.Tech. + M.Tech. (Dual Degree), Mining [CGPA: 7.70/10.0]

Rourkela, Odisha

Nov. 2022 – June 2027

Salt Lake School (E.M)

10+2 High School Education [GPA: 10/10]

Kolkata, West Bengal

April 2008 – June 2022

Relevant Coursework

- Data Structures
- Database Management
- Fundamental Analysis
- Finance and Markets
- Back-end Development
- Machine Learning
- Portfolio Management
- Economics

Experience

Undergraduate Research Intern

May 2025 – August 2025

IIT Kharagpur

Kharagpur, West Bengal

- On-site internship entitled 'Embedded Systems Design and Coding' under Prof. Arabinda Routray at IIT KGP during the mentioned period. I worked on a research project titled "Contactless Monitoring of Human Vitals and Emotions" based on fluctuations in heart rate, respiratory rate, and other vital parameters, determined through non-invasive biomarkers using FMCW radar and thermal camera images. [Project Certificate](#)

Financial Portfolio Management Intern

Dec 2023 – Feb 2024

Finlatics

Remote

- Conducted in-depth research on various sectors in the Indian market and evaluated the performance and potential of companies within those sectors.
- Completed a three-month virtual internship involving simulated trading via the Finlatics app, supported by tutorial videos and mentor guidance; achieved 70–80% accuracy in market predictions.
- Earned multiple recognitions: [Performance Report](#), [Certificate of Completion](#), [Letter of Recommendation](#).

Projects

GlobeTrotter | *HTML, TailwindCSS, NextJS, Express JS, MongoDB, OpenAI API, PyTorch, Python*

August 2025

- Architected a scalable, multi-city travel planning platform at the Odoo Offline Finale Hackathon (Gandhinagar) using Next.js, REST APIs, and MongoDB to manage users, itineraries, cities, activities, and budgets. Integrated LLM-based APIs and PyTorch-driven intelligence for automated itinerary generation, activity recommendation, and cost estimation, with dynamic calendar/timeline visualisation and public sharing. Ranked Top-20 out of 400+ teams, highlighting strong system design, data modelling, and AI-powered product execution. [Project Repository](#) [Prototype Link](#)

GadgetHive | *HTML, CSS, Flask, SQLite, Bcrypt, Python*

June 2025

- Developed a personal project named GadgetHive, which is a secure, encrypted back-end project, serving as an online marketplace to sell and buy products from an online market. It is built using Flask and its libraries, along with bcrypt for encryption and SQLite as a database, featuring passwordless FIDO2 passkey login. [Project Repository](#)

AlgoCash | *MS Excel, Scikit-learn, NumPy, Pandas, S&P500, Python*

March 2025

- Equal-Weight S&P 500 Portfolio Analysis – Built a Python-based portfolio construction and analysis pipeline to create an equal-weighted SP 500 index using financial APIs, Pandas, and NumPy. Evaluated sector exposure, rebalancing logic, and comparative performance against market-cap-weighted benchmarks.

Technical Skills

Languages: Java, Python, JavaScript, HTML/CSS, MongoDB, SQLite, PostgreSQL

Frameworks/Libraries: Flask, Hibernate, JDBC, SpringBoot, ReactJS, LangChain, Bcrypt, Pandas, NumPy, scikit-learn, PyTorch

Developer Tools: MS Excel, Power BI, GitHub, Git, Jupyter Notebook, GCP, Docker, Maven, Postman

Leadership / Extracurricular

Secretary

May 2024 – April 2025

Finance Club

NIT Rourkela

- Executed 5 large events (e.g., Finotsav); secured major sponsors and collaborations.
